

# HELP SHAPE THE FUTURE OF OUR SCHOOL!

## PROPOSAL: NEW ON-SITE SCHOOL NURSERY AT STRADBROKE PRIMARY SCHOOL

Stradbroke Primary School is exploring the possibility of opening a new school-based nursery for children aged 3-4 years. To help us with our planning, we are surveying our local community to find out whether there is a need for nursery places in Stradbroke, and if so, can we help by opening a nursery at Stradbroke Primary School.

### Why are we proposing this?

We believe that providing a nurturing early years setting on-site will help children settle confidently into their school journey, allowing them to build strong relationships with staff from the very beginning.

### Key Features of Our Proposed Nursery:

- **Convenience:** Local on-site location reduces travel for families with siblings.
- **Expert Care:** High-quality early years provision aligned with the school's ethos.
- **Access:** to school resources and facilities
- **Familiarity:** A smooth, gentle transition into Reception.
- **Helping children:** to build strong foundations for future learning
